

# Oilfield Equipment Supply & Service Company

# Organization Chart

# Who We are

OGWS services upstream industry to leading operating companies such as Saudi Aramco and other oil & gas service companies in the GCC region.

OGWS work with partners from different regions of the world as their agents, but they all share the drive to be active and heavily present in Saudi Arabia. We endorse and implement proven practices and procedures with our partners that allow us to safely deliver cutting edge products to the oilfield sector.

Our staff have years of experience with hands on the job in the oilfield sector and understand the challenges associated with operating and delivering oilfield products and services in the kingdom of Saudi Arabia.

**ABOUT**  
**OG Well Services**

Oil Goods Well Services (OGWS) is an Oilfield Equipment Supply & Service Company with main office located at Dammam in the eastern region in the Kingdom of Saudi Arabia.

# Our Company

Oil Goods Well Services (OGWS) is an Oilfield Equipment Supply & Service Company with main office located at Dammam in the eastern region in the Kingdom of Saudi Arabia.

## OUR MISSION

To allocate & deliver value added energy products and services to the Gulf and Mena region.

# Quality

At OGWS we deliver audit and services that maintain client assets and keep people safe. We have strong technical team, who are ISO accredited. We stay up to date with all legal and technical requirements, helping to make sense of a complicated and often misinterpreted industry practice by applying standards sensibly and advising our customers on how best to implement them with minimal impact on operations.

IKTVA has become recently a determining factor for success and support of business in the oilfield sector in the kingdom of Saudi Arabia. OGWS work closely with its partners and IKTVA authorities to achieve Saudization and add value by adding locally manufactured products and services within its activity.

# Our Capability

OGWS collaborates with international leading oilfield products manufacturers, service providers and Engineering Procurement and Construction (EPC) contractors to fulfill the requirements in this volatile sector in Saudi Arabia.

## Our services and supplies

With our partners, we make sure to align our business to satisfy the needs and requirements stipulated by the new vision of Saudi Aramco and the localization program for investment support In Kingdom Total Value Added (IKTVA) set by the authorities in the Kingdom of Saudi Arabia. By setting up strategic alliances and joint ventures for local product manufacturing and service providing, our team and partners strive to contribute to the national oil company's vision for enhancing the overall countries economic growth in the oil & gas sector. OG believes that providing a proper platform for the business with our partners can be determinant to meet such needs.
